MULTI OPTION FUZE ARTILLERY

ASAF 155 MOFA, is an inductively programmable, cost-effective and electronic multi-option artillery fuze, ensuring maximum performance, reliability and safety. ASAF 155 MOFA is compatible with 39 and 52 calibre 155 mm howitzers and automatic loading systems.

Overview:

- Inductively settable with fuze setter
- Modes:
 - Proximity
 - Point Detonating Super Quick
 - Point Detonating Delay
 - Time Programmable
- Proximity with two heights of burst (6m & 12m)
- Safe under heavy rain
- Point Detonating Delay with unique penetration capability
- High precision time counting
- Well proven safety and arming device during storage, transportation and operation
- High level anti-jamming

Technical Specifications:

• Dimensions	: STANAG 2916
• Height	: 151,6 millimeters max.
• Thread	: 2-12UN-1A
• Weight	: 770 ± 50 grams
• Muzzle Safety	: ≥ 100 meters
• Required Conditions for Arming	: 1500 G & 3500 RPM
• Operation Temperature	: -32°C / +50°C
• Storage Temperature	: -54°C / +71°C
• Shelf Life	: 15 years

Fuze Setter
