

ASELSAN to showcase its proven defence technologies at EUROSATORY 2024

ASELSAN, Türkiye's leading defence company, will exhibit its cutting-edge solutions and diverse product range at EUROSATORY 2024, Europe's prestigious defence and security exhibition, in Paris between June 17-21. Under the motto "Technology Serving People and Planet", ASELSAN is dedicated to enhancing international collaborations at this significant event, highlighting its global presence and steadfast commitment to new partnerships.

At EUROSATORY 2024, ASELSAN will showcase its engineering expertise and a comprehensive array of cutting-edge systems, including radar systems, air defence, electronic warfare solutions, naval systems, air platform solutions, border security, tank modernization, communication solutions and UAV payloads at Hall 6 Stand No:H26.

KORKUT Air Defence Gun System

A key highlight will be the KORKUT air defence gun system, renowned for its ATOM 35 mm smart fire power, designed to provide effective air defence for mobile elements and mechanized units. The KORKUT system, already in the inventory of Turkish Armed Forces in its tracked vehicle configuration will be showcased for the first time integrated on an 8x8 vehicle at an exhibition abroad.

ALP Multifunction AESA Air Surveillance Radar System

ASELSAN will also display its excellence in radar technologies with the ALP multifunction AESA Air Surveillance Radar System. This system can serve as the primary search radar for the ground-based air defence systems, effectively covering areas not covered by other long-range radar systems.

MARLIN Unmanned Surface Vehicle

Additionally, MARLIN, ASELSAN's advanced Unmanned Surface Vehicle designed for surface and electronic warfare, reconnaissance and surveillance, base/port/critical ship-facility security, as well as amphibious operations, will be among the diverse range of products showcased at EUROSATORY.

ASELSAN President & CEO Ahmet Akyol commented on the company's participation in EUROSATORY 2024: *"We are proud to bring our deep engineering expertise to EUROSATORY 2024. The European defence market is among the top priorities of ASELSAN and we believe*

our participation in EUROSATORY will be a crucial step in enhancing our existing partnerships, forging new collaborations and facilitating direct engagement with industry professionals and end-users from across Europe and around the globe.”

ASELSAN, through its extensive network of global subsidiaries and offices in 16 countries, consistently delivers cutting-edge technology products and solutions across defence, security, commercial and civilian sectors, making a significant impact both in Europe and worldwide.
