INTEGRATED OPERATION OF ALL SENSORS
REAL-TIME 24/7 MONITORING AND RECORDING
TURNKEY SOLUTION WITH EXPANDABLE STRUCTURE
PREPAREDNESS FOR POSSIBLE THREATS
RAPID RESPONSE
ANOMALY DETECTION WITH ARTIFICIAL INTELLIGENCE AND DEEP LEARNING
CUSTOMIZED SOLUTIONS FOR THREATS, NEEDS AND TERRAIN
CYBER SECURITY

FACILITYGUARD

FACILITY SECURITY SYSTEM

FacilityGuard has been developed to continuously detect, diagnose and monitor threats with ASELSAN products and security management software that integrates all sensors to be installed in critical facilities.

Providing effective and integrated security management, FacilityGuard ensures end-to-end high secure system solution with various products and software developed by ASELSAN.

Perimeter Off-Side Security
- ODAKAN Cameras (CCTV, Thermal, Long Range, Video Analiytics, Face Recognition)
- GEKO Licence Plate Recognition System
- MİDAS F/O Based Intrusion Detection System
- MİRSAD Security Management Software
- ARIN X-Ray Luggage Scanning System
- KAYIN Recording System
- Secure Communication Infrastructures

Perimeter On-Side Security
- ODAKAN Cameras (CCTV, Thermal, Long Range, Video Analiytics, Face Recognition)
- ODAKAN YAKA Body Worn Camera

- KAYIN Recording System
- MİRSAD Security Management Software
- ASELZONE Wireless Motion Detection
- Secure Communication Infrastructures

Entrance Security
- ODAKAN Cameras (CCTV, Thermal, Long Range, Video Analiytics, Face Recognition)
- GEKO Licence Plate Recognition System
- KAYIN Recording System
- MİRSAD Security Management Software
- ARIN X-Ray Luggage Scanning System

Security Management Center
- MİRSAD Security Management Software
- URUK Integrated Monitoring & Management System
- Central Analysis System
- Data Center & Cloud
- Smart Integration
- Situational Awareness
- Creating Alarm

Perimeter, Entrance and Inside Security of the Facility

Facility Air Space Security

ODAKAN CAMERAS — CCTV, Thermal, Long Range, Fixed and Mobile Face Recognition, Video Analytics

GEKO+ Licence Plate Recognition

ODAKAN YAKA Body Worn Cameras

KAYIN Recording Systems

MİDAS F/O Based Intrusion Detection

MİRSAD Physical Security Information Management Software

ARIN X-Ray Luggage Control System

ARA Vehicle Risk Analysis System

aselZone Wireless Motion Detectors

RADARS Land, Marine and Low Level Air Treat Detection

KAHİN Analysis Systems

e-WARN İKAS Warning & Alarm Siren System

İHTAR UAV Prediction System

ŞAHİN Physical Destruction System
