

MIDAS | 3

INTRUSION DETECTION SYSTEM

SHORT RANGE

#Security

UP TO 20 KM RANGE

AI CLASSIFICATION

MULTIPLE THREAT DETECTION

NO ELECTRICITY REQUIRED FOR FIBER SENSOR

RESILIENT TO ELECTRO MAGNETIC THREATS

7/24 & REAL TIME INTRUSION DETECTION

CONTINUOUS OPERATION UNTIL CUT POINT OF FIBER-OPTIC

MIDAS | 3

INTRUSION DETECTION SYSTEM SHORT RANGE

Fiber-optic based intelligent acoustic detection sensor designed for multi-purpose applications, including border, critical facility, pipeline & energy transmission line, as well as railway security.

Detection Abilities

Underground Applications

- Human Activities (Walking/Running)
- Vehicle Activity
- Manual Digging Activity
- Excavation Activity
- Rock Fall Activity

On Fence Applications

- Fence Cutting
- Fence Climbing
