MULTI OPTION FUZE ARTILLERY

ASAF 155 MOFA is compatible with all 155 mm shells, 155 mm 52 calibre howitzers and automatic loading systems. It is fully compliant with all JBMoU artillery systems.

Overview

- Inductively settable with fuze setter
- Modes:
 - Proximity
 - Point Detonating Super Quick
 - Point Detonating Delay
 - Time Programmable
- Proximity with two heights of burst (6m & 12m)
- Safe under heavy rain
- Point Detonating Delay with unique penetration capability
- Well proven safety and arming device during storage, transportation and operation
- High level anti-jamming

Technical Specifications

- Dimensions : STANAG 2916
- Height : 151,6 milimeters max.
- Thread : 2-12UN-1A
- Weight : 770 ± 50 grams
- Muzzle Safety : ≥ 100 meters
- Required Conditions for Arming: 1500 G & 3500 RPM
- Operation Temperature : -32°C / +50°C
- Storage Temperature : -54°C / +71°C
- Shelf Life : 15 years
